- 1 In retrospect, what could you have done better to reduce the time you spent solving this assignment?**

Review the lecture notes and get started early to take advantage of office hour.

- 2 What could have we done better to improve your learning experience in this assignment?**

It is better for us to touch real example so we can become more familiar with that kind of homework.

- 3 What do you know now that you wish you had known before beginning the assignment?**

I really know about how to utilize our class previously and get closer to open for extension but no modification.
